

Bill of Patient Rights & Responsibilities

in Breast Health, Breast Aesthetics and Reconstruction

"HEALTH IS A STATE OF COMPLETE PHYSICAL, MENTAL
AND SOCIAL WELLBEING
AND NOT JUST THE ABSENCE OF AN ILLNESS"
(WHO, JULY 1946)

As a women's health company, we want to exceed these standards and give a fair and equitable treatment to all women and created this bill to educate you on what your rights and responsibilities are

Establishment Labs®

Bill of patient Rights & responsibilities

in breast health, breast aesthetics and reconstruction

PATIENT & CONSUMER CONCERNS

- Do I receive the best possible care addressed to my needs?
- Am I treated with patient-centric products and the best solution, specific to my needs?
- Do I receive technology with a proven safety record?
- Am I protected by transparent, clear, and credible warranties?
- Am I informed about the possible consequences of surgery, short- and long-term complications and potential financial impact?

Establishment Labs®

Bill of patient Rights & responsibilities

in breast health, breast aesthetics and reconstruction

PATIENT RIGHTS

- The right to choose:
 - Optimal breast health
 - Qualified care by qualified HCP
- A state of the art patient-centric product to address specific and unique needs during the life-time of the solution
- The right to correct information throughout my journey
- The right to partner in the decision making of solution & product
- The right to receive care without discrimination
- The right to have my privacy protected
- The right to access my clinical records

Establishment Labs®

Bill of patient Rights & responsibilities

in breast health, breast aesthetics and reconstruction

PATIENT RESPONSIBILITIES

- To provide a complete and accurate medical history
- To communicate concerns and expected outcomes for the potential treatment
- To understand and agree to the information of the desired product or solution that is provided from an HCP or medical device manufacturer
- To follow the pre- and post-operative or any other medical recommendations
- To understand any financial obligations or future associated costs with dissatisfaction or complications
